## WHAT WE OFFER

### 课程设置

CBS 高中部同时开设了两种在世界范围内广泛认可且特色鲜明的国际高中课程——A Level 课程和 IBDP 课程。

CBS High School offers two internationally recognized and distinctive high school programs -- A Level and IBDP.

### A Level 课程介绍

CBS 高中部开设英式国际高中课程，学生在 3 年的学习中完成 IGCSE 和 A Level 课程。

At CBS High School, we offer a British-style high school curriculum with students completing IGCSE and A Level courses during the 3 years of study.

当新生进入 CBS 高一，他们将学习 IGCSE 课程。这些课程涵盖了不同的学科领域，让学生可以挖掘自己的天赋和个人兴趣。

When new students enter the first year at CBS High School, they will study various IGCSE courses. These courses cover various subject areas, allowing them to explore their talent and personal interests.

经过一年的 IGCSE(或称 Pre - A Level)学习后，学生将继续学习 A Level 课程。每个学生将根据自己的喜好完成 4-5 个 AS 科目和 3-5 个 A Level 科目。

After one-year-study of IGCSE (or Pre - A Level), CBS students will move onwards to A Level Courses. Each student would be expected to complete the 4 or 5 AS subjects and 3 or 5 A Level subjects based on their preference.

IBDP课程介绍

IBDP 是专为年龄段在 16 至 19 岁的学生设计的国际课程，学制两年。课程涵盖内容全面、结构严谨,并得到全球名校广泛认可。

The IB Diploma Programme (IBDP) is a two-year international programme designed for students aged between 16 and 19. The curriculum covers a comprehensive content with rigorous structure, and is widely recognized by the world's leading universities.

常外双语高中部是常州地区首家也是唯一提供 IBDP 课程的学校。  
CBS High School is the first and only school in Changzhou to offer IBDP courses.

IBDP 课程包含六个学科组和三门核心课程。六个学科组包括语言与文学、语言习得、个体与社会、实验科学、数学和艺术。

The IBDP curriculum consists of six subject groups and three core courses. The six subject groups include Language and Literature, Language Acquisition, Individuals and Societies, Sciences, Mathematics and The Arts.

三门核心课程是：  
The three core courses are:

知识论  
Theory of Knowledge,简称 TOK

拓展论文  
Extended Essay,简称 EE

创造、活动与服务  
Creativity, Activity and Service 即 CAS

这三门核心课程旨在拓宽学生的视野，并学会如何在实践中运用自己所学的知识 and 技能。这也是 IB DP 课程设置独特性的集中体现。

The DP core aims to broaden students' educational experience and challenge them to apply their knowledge and skills. This makes DP course unique and different from other curricula.

知识论 ( TOK ) 要求学生反思知识的本质，以及我们如何知道自己声称知道的东西。目的是培养学生的判断与综合归纳能力，重点讨论知识方法和知识领域，鼓励学生对基础知识进行反思质疑，防止主观臆断和思想意识上的偏见，增强学生以理性基础进行分析和表达的能力。

The Theory of Knowledge (TOK) asks students to reflect on the nature of knowledge, and on how we know what we claim to know. The purpose is to cultivate students' judgment and comprehensive induction ability, focus on discussing knowledge methods and knowledge fields, encourage students to reflect on and question basic knowledge, prevent subjective assumptions and ideological bias, and enhance students' ability to analyze and express on a rational basis.

拓展论文 ( EE ) 要求学生结合所学课程中的某一知识点进行独立的调研，要能写出 4000 字的文章。这项要求为学生提供了按自己兴趣写作论文的机会，并使学生熟悉独立研究的方法，锻炼写作技巧，为本科研究做准备。

The Extended essay (EE) requires students to conduct independent research based on a certain knowledge point in the course and be able to write an article of 4,000 words. This requirement provides students with the opportunity to write a paper tailored to their interests and familiarizes them with independent research methods to practice their writing skills in preparation for undergraduate research.

CAS 使学生通过体验式学习来促进个人及人际关系的发展，它提供给学生自主决定以及与他人合作的机会，培养他们从工作中获得成就感和乐趣。同时，CAS 对 DP 的学术压力起到了重要的平衡作用。

CAS enables students to enhance their personal and interpersonal development by learning through experience. It provides opportunities for self-determination and collaboration with others, fostering a sense of accomplishment and enjoyment from their work. At the same time, CAS is an important counterbalance to the academic pressures of the DP.
